

euromedia Banner Boost

White, single-sided adhesive PVC tape to reinforce PVC banners

Description

Clever "stabiliser" for banner applications. Saves weight where, without Banner Boost, you would have to use a thicker tarpaulin. Reinforces the banner where it matters.

Application areas

- For reinforcing PVC banners
- Dimensional stability with large area banners
- Strengthens edges

Properties

- Special adhesive for PVC banners
- High degree of adhesive strength
- Very good compatibility with the application surfaces

Specifications

Material	PVC adhesive tape
Weight	900 g/m ²
Yarns	1 100 dtex
Maximum tensile strength (N5/5cm)	4300/4000
Tear propagation strength (N)	400/350 (DIN EN 1875-3)
Flammability	100 mm/min (DIN 75200)
Temperature resistance	-30 °C to 70 °C
Final adhesive strength /steel	>3.0 N/cm
Application weight	>25 g/m ²

Processing tips

- Please note that the development of adhesive strength is dependent on the base material.
- The adhesive does not develop its full strength until at least 24 hours - please allow enough time before subjecting the bond to any load.

Storage

The product should be stored in the original packaging at a room temperature of 10 °C - 20 °C and a relative humidity of approx. 50%.
