euromedia Solvent Color Backlit

For backlit applications such as lightboxes and for point of sale designs

Description

euromedia Solvent Color Backlit is the perfect product for small and large jobs for backlit applications. The robust 200 mic. thick film is compatible with all common solvent, latex and UV ink systems. The satin gloss surface ensures high colour density. Backlit or not, Solvent Color Backlit will catch everyone's attention.

Application areas

- Light box graphic
- Backlit Trade show display
- Department store display
- luminous advertising
- Bus shelter & Metro illuminated signage

Properties

- high ink density
- vivid colors with high glossy
- good scratch resistance
- waterproof with advanced coating
- very good rigidity and flatness of 8 mil base polyester film
- outstanding image resolution with / without light
