euromedia Lightbox Vinyl polymer

Description	euromedia Lightbox Vinyl polymer is an 80 mic. thick translucent, matt, polymeric vinyl. For solvent and UVC printers.

Benefits
- UV-resistant
- lies totally flat
- brilliant print image
- low reflection
- homogeneous diffusion layer
- fast drying

Applications
- Backlits

Properties

Thickness	80 mic.
Dimensional stability (48h at 70°C)	<0.03% shrinkage
Adhesive strength	19N/25mm

Storage   The material should be processed and stored ideally in
                   an environment of 30 to 65% relative humidity and a
                   temperature of 10 to 35 C. Store in the original
                   packaging (cardboard box and PE bag). We recommend that
                   you wear cotton gloves when handling inkjet coated
                   material, to avoid finger prints.
